

Prime Minister Nawaf Salam
Prime Minister's Office,
Grand Serail,
Beirut, 1100
Lebanon

23rd February 2025

Dear Prime Minister Salam

Israeli Sovereignty Project

The Ark of the Covenant excavation project in Egypt will prove that Israel has no lasting claim on the territory it now occupies. My great grandfather instigated the Balfour Agreement, so I should know.

The project balances precariously between glorified success and international conflict in the court which you preside over.

Our shared heritage teaches that a man's name may evoke his very destiny - and yours meaning 'the sound of peace' - might have the power to do so here.

Let us avoid the distraction of international legal conflict and embrace the extraordinary possibilities which this project represents for our people in the Middle East.

Urge your friends in Egypt to forego the fears of prideful men, and press forward with the excavation of the Ark of the Covenant in Egypt.

Your friendly arbitration is greatly appreciated.

Dr Warner
