Bcc: Mohammed <mohamedelseaidy50@gmail.com>

Attention:

British Ambassador Mark Bryson-Richardson MBE

Dear Mark

I am in Egypt to meet with Ashraf Mohie of the Ministry of Antiquities, Giza Necropolis.

Due to the very public nature of the dispute, over the agreement made in 2021, and the tendency for this government to make its detractors disappear, it is necessary to inform you of my intention to meet with Secretary General Ashraf Mohie, tomorrow 4th January 2026.

Although it is my hope that our dispute is little more than a gross misunderstanding, I intend to serve Mr Mohie with International Court discovery documents, in the event that the matter cannot be resolved to my satisfaction. Punitive damages have been set at 200,000,000 USD.

You will no doubt be aware of my family's enormous contribution to Middle East history (including the 1875 financing of the Suez Canal Company).

The GARP discovery has the potential to exceed the economic, scientific, religious and cultural importance of the aforementioned project in this region.

I will write to you again, with an update, immediately following the conclusion of my meeting.

Dr Warner
